International ADR Only Growth Equity Composite contains fully discretionary accounts that invest in U.S. traded equities of companies domiciled outside the U.S. Portfolio sector and regional weights are managed within a range relative to the benchmark. Cash is a residual of the investment process. Prior to December 2008, the composite was called the International Tax-Exempt ADR Only Growth Equity Composite. For comparison purposes the composite is measured against the MSCI All Country World (Net) Index Excluding U.S.A. (“MSCI ACWI (Net) ex USA”), which measures the returns of equities of companies which are domiciled outside the U.S., and the MSCI EAFE (Net) Index, which measures the returns of equities of companies domiciled in developed markets in Europe, Australasia, and the Far East. Both indexes are compiled by Morgan Stanley Capital International, and are float weighted with net dividends reinvested. Prior to January 1, 2015, the composite was measured against the MSCI ACWI (Gross) ex USA index, and the MSCI EAFE (Gross) Index. The benchmark changes were applied retroactively to provide a better comparison to the composite for which the return is net of withholding taxes. Investors may not invest directly in these indexes. For periods prior to July 31, 2014, the track record presented here was maintained by Hansberger Global Investors, Inc., (“HGI Inc.”), an advisor not affiliated with HGI LP. See the disclosures below regarding the acquisition of the international growth strategy assets of HGI Inc. by HGI LP after July 31, 2014.

*The firm is defined as Hansberger Growth Investors, LP (“HGI LP”), a subsidiary of Madison Asset Management, LLC, and an investment adviser registered with the Securities and Exchange Commission pursuant to the Investment Advisors Act of 1940. (Registration does not imply a certain level of skill or training.) The firm maintains a list of composite descriptions, which is available upon request. The International ADR Only Growth Equity Composite was created on August 1, 2014. The international growth management team of HGI Inc., who were responsible for composite performance prior to August 1, 2014, joined HGI LP on August 1, 2014.

HGI LP claims compliance with the Global Investment Performance Standards (GIPS®) and has prepared and presented this report in compliance with the GIPS standards. HGI LP has been independently verified from August 1, 2014 through March 31, 2017. HGI Inc. was independently verified for the periods from January 1, 1995 through December 31, 2013.

Verification assesses whether (1) the firm has complied with all the composite construction requirements of the GIPS standards on a firm-wide basis and (2) the firm’s policies and procedures are designed to calculate and present performance in compliance with the GIPS standards. The International ADR Only Growth Equity Composite has been examined for the periods August 1, 2014 through March 31, 2017. The verification and performance examination reports are available upon request. The International ADR Only Growth Equity Composite, while being maintained by HGI Inc., was examined for the periods from May 31, 2007 through December 31, 2013. The HGI Inc. verification and performance examination reports are available upon request.

Results are based on fully discretionary accounts under management, including those no longer with the firm. Beginning with August 1, 2014, composite policy requires the temporary removal of any portfolio incurring a client-initiated significant cash inflow or outflow of greater than 75% of portfolio assets. Prior to August 1, 2014, there was not a significant cash flow policy. The returns presented represent past performance and do not indicate future results, which may vary.

Valuations and returns are computed and stated in U.S. Dollars. Returns are presented gross and net-of-fees and include the reinvestment of all income and are net of withholding taxes on dividends. Net returns are calculated using the highest fee of 0.75% within the product’s standard fee schedule, deducted quarterly in arrears. The annual composite dispersion presented is an equal-weighted standard deviation calculated for the accounts in the composite the entire year, however, is not presented for periods when the statistic is not meaningful due to an insufficient number of portfolios in the composite over the given time periods. On January 1, 2015, the three-year annualized ex-post standard deviation of the benchmarks were adjusted retroactively to coincide with the change from gross to net of withholding taxes as stated above. Policies for valuing portfolios, calculating performance, and preparing compliant presentations are available upon request.

This product’s standard fee schedule is 0.75% on the first 50 million, 0.50% on the next 100 million and 0.40% thereafter. Actual investment advisory fees incurred by clients may vary. Additional information regarding HGI LP’s fees is included in its Disclosure Brochure.
